WORK EXPERIENCE

Senior Process Associate – Siemens Technologies Private Limited, Bengaluru, India

June 2025 – Present

- **Order Management & Processing:** Process customer orders, contracts, and billing information in ERP systems with accuracy, ensuring timely delivery and invoicing in compliance with SLAs.
- **Account Reconciliation:** Reconcile customer accounts by investigating and resolving payment discrepancies, coordinating with internal teams to clear open items.
- **Reporting & Aging Analysis:** Generate and analyze aging reports to monitor various sales activities.
- **Internal Coordination & Stakeholder Management:** Liaise with Sales, Finance, and Operations teams to resolve customer account discrepancies and streamline O2C processes.
- **Compliance & Audit Support:** Ensure process compliance with internal controls and external audit requirements, maintaining proper documentation and adhering to company policies.
- **Month-End Closing Support:** Assist in month-end and quarter-end closing tasks, including revenue recognition and reconciliation of accounts to ensure accurate financial reporting.
- **Master Data Management:** Support the onboarding of new customers by validating documentation and accurately setting up master data in ERP systems.
- **Tool Utilization & System Proficiency:** Utilize tools like SAP, Salesforce, and Microsoft Excel to manage orders, track performance, and support daily operations.

Project Manager - BrandStory Solutions Private Limited, Bengaluru, India
April 2022 – May 2025

- **Stakeholder & Client Management:** Worked closely with clients to understand business objectives, gather requirements, identify challenges, and translate their needs into practical technical solutions aligned with their goals.
- **Requirements & Solution Definition:** Collaborated with clients and internal teams to clarify requirements, evaluate solution options, and ensure deliverables addressed business needs and expectations.
- **Cross-Functional Coordination:** Coordinated with developers, SEO executives, UI/UX designers, and other internal stakeholders to align teams, manage dependencies, resolve blockers, and ensure smooth project execution.
- **Project Planning & Delivery:** Managed the planning and execution of multiple technical projects, delegated tasks based on team capabilities, monitored progress, and ensured deliverables were completed within defined timelines.
- **Prioritization & Resource Coordination:** Supported task prioritization and resource allocation across development and design teams to optimize productivity and maintain project momentum.
- **Client Feedback & Continuous Improvement:** Monitored projects throughout the delivery lifecycle, gathered client feedback at key stages, and coordinated improvements to ensure solutions continued to meet evolving business requirements.
- **Sales & Pre-Sales Support:** Supported the sales team during pre-sales activities by contributing to solution presentations, providing technical insights, and helping prospective clients understand how proposed solutions could address their business needs.
- **Performance Monitoring & Reporting:** Tracked project progress and team performance, prepared reports, and communicated updates to relevant stakeholders to support informed decision-making.
